	Title:			
	Email:			

You must complete ALL of the information on this form!

Please review the information above. We will not process your order until we have this page signed and faxed to us at 866-660-5431.

Your signature below signifies that you agree to the following:

ComCity LLC will act on your behalf, or on behalf of your company in order to secure your SSL Certificate. If you are acting on behalf of a company, please list your title and company. If you are acting on behalf of yourself, leave the title/company field blank.

You understand that ComCity requires pre-payment for all SSL application fees. SSL application processing can taken anywhere from 1 week to 3 weeks. Further more, you understand and agree that these fees are **non-refundable** in virtually all cases. Even if you change your mind later or if the SSL application is denied or is deemed incorrect by the SSL authorities according to the information you have provided, we are unable to return these fees, as we must pre-pay them with the SSL authority. If an application is denied because of a typo or mistake on our behalf, then we will resubmit the application free of charge. In addition, you must provide us, or the SSL authorities, with sufficient information to complete the SSL application within a reasonable time; failure to do so, may cause a lapse in processing time. In any case where you decide to abandon your SSL certificate or fail to respond after 5 weeks, your fee will be forfeited and you will have to reapply. Please re-check your application and the information you have provided to us as seen above, before you sign and submit it. If you agree, double check the information and sign below. Then fax the signed application to ComCity. We will not begin your SSL application until we receive this document with your signature on it.

Yes, I agree. Please initial: ☐
